

Real Appeal

An evidence-based approach to support weight loss

Weight issues in the U.S. have reached epidemic proportions. It's estimated that nearly seven out of 10 adults (69 percent) are considered overweight or obese.¹ UnitedHealthcare's Real Appeal program can help you reverse this trend, with tools and support to help employees lose weight, feel good and prevent weight-related health conditions.

How it works

Real Appeal helps people make small changes necessary for larger long-term health results, based on weight-loss research studies commissioned by the National Institutes of Health. Real Appeal uses a highly interactive weekly internet show, videos and live online coaching to drive small behavior changes week by week over a full year.

The program is designed to support members who are obese (body mass index (BMI) over 30), overweight (BMI of 25 to 29.9) or simply ready to lose weight.

Did you know...

- Overweight and obese workers have medical claims that are 7x higher than their fit coworkers.²
- Health care costs directly related to excess pounds are estimated to double each decade, reaching \$957 billion in 2030.³
- Being overweight increases the risk of developing diseases, such as heart disease, type 2 diabetes, hypertension, high blood pressure and sleep apnea.⁴
