CHILLERS

Chillers are one of the most significant investments in any facility, making routine maintenance essential to protecting system performance, efficiency, and long-term lifespan. Regular service helps minimize wear and tear on critical components, prevent corrosion and costly breakdowns, and ensure your equipment continues operating at peak performance. TP Mechanical provides all your chiller needs.

- Chiller tube cleaning and repair
- Chiller overhauls
- Compressor rebuilds
- Customized chiller system preventive maintenance programs
- Industrial chiller system and equipment retrofits
- Non-destructive chiller efficiency-testing services, including:
 - Eddy current tube analysis
 - Infrared scanning
 - Refrigerant analysis
 - Spectrographic oil analysis
 - Vibration analysis
- Refrigerant conversion
- Retubing
- Temporary commercial chiller installation

Our first core value is “Safety First, Always First,” and we will relentlessly pursue the highest standard of safety so that we can send each of our employees home to their families every night, injury-free. To learn more about our mechanical and HVAC capabilities, contact us today.
